

Exhibit T-1
Owner Training Requirements

<Placeholder for Owner to Provide>

1. The Contractor shall provide up to 40 hours of on-site training class for operators, engineers, technicians and maintenance personnel for up to fifteen people on the operation, maintenance, and repair of equipment furnished as part of the Works.
2. Training shall include both classroom and hands-on training.
3. Contractor shall allow Owner representatives to shadow / observe Contractor's startup personnel during commissioning activities. Participation by Owner's trainees is at Owner's option and does not relieve Contractor of responsibility to properly commission the facility.
4. The Contractor shall be responsible for providing overview of equipment technology to first responders.
5. Training(s) may be recorded at Owner's request.
